## SUMMARY

- Ph.D. candidate in Computer Science with expertise in machine learning, artificial intelligence, and database management.
- Experienced in teaching and mentoring students in fundamental CS courses, advanced object-oriented programming, discrete structures, and database management.
- Skilled in programming languages (C, Java, Python) and deep learning frameworks (TensorFlow, PyTorch, Scikit-learn, Keras, ONNX).
- Experienced in AI-driven applications and training models for problem-solving tasks.
- Leadership experience as President of the Bangladeshi Student Association at UTEP.

## EDUCATION

### Ph.D. in Computer Science

University of Texas at El Paso (UTEP)

2021 - Present

El Paso, Texas

### Master of Science

University of Texas at El Paso (UTEP)

May 2025

El Paso, Texas

### MBA in Human Resource Management

Institute of Business Administration (IBA), University of Dhaka (DU)

2010 - 2012

Dhaka, Bangladesh

### B.Sc. in Electrical & Electronics Engineering

Islamic University of Technology (IUT)

2005 - 2009

Gazipur, Bangladesh

## EXPERIENCE

### UTEP, Miners Cybersecurity Clinic

Clinic Operations and Research Coordinator

June 2026 - Present

El Paso, Texas

- Coordinate day-to-day clinic operations supporting small business and nonprofit cybersecurity outreach, including client engagement and communication with faculty leads, industry partners, and student teams.
- Review and finalize student-produced cybersecurity assessment reports for clients, ensuring accuracy, consistency.
- Support clinic research and outreach by developing research reports, maintaining the clinic website, and producing awareness materials.
- Mentor students on individual cybersecurity projects, providing technical guidance and feedback on assessments and reports.

### UTEP, Department of Computer Science

Graduate Teaching Assistant at Database Management (CS-4342)

August 2021 - May 2026

El Paso, Texas

- Assisted instructor in a mixed-level class environment during Spring 2023 comprising undergraduate and graduate level students. Lead review sessions to reinforce lecture concepts, especially in SQL, database design, and normalization.
- Provided hands-on assistance with database software and tools, like MySQL. Held regular office hours (both in person and virtually) to assist students with their queries and difficulties related to course content, assignments, and projects.
- Assisted the instructor in grading assignments, quizzes, exams, and project reports. Provided constructive feedback to students to help them improve their understanding and skills.

Graduate Teaching Assistant at Machine Learning (CS-4361)

El Paso, Texas

- Assisting and supporting the instructor in a class of undergraduate students in Fall 2025 by clarifying core ML concepts such as supervised and unsupervised learning, model evaluation, and feature selection.
- Conducting review sessions focused on implementing algorithms using Python libraries and guiding students through hands-on projects involving real-world datasets.
- Collaborating with the instructor on grading assignments, quizzes, and project reports while providing constructive feedback to enhance students' understanding of theoretical and applied machine learning.

*Graduate Teaching Assistant at Advanced Object-Oriented Programming (CS-3331)* *El Paso, Texas*

- Assisted more than 170 students in 3 different sections during Fall 2024 and more than 70 students in 2 different sections during Spring 2026 to overcome difficulties with object-oriented programming, conducted classes during difficulties.
- Conducted classes (during the absence of the instructor) and held Office hours to assist and prepare students before exams, quizzes, assignments, and projects.
- Assisted the instructor in grading assignments, exams, and project reports with live demos from students. Feedback was provided to the students to help improve their understanding and skills.

*Graduate Teaching Assistant at Elementary Data Structure and Algorithms (CS-2401) with Lab* *El Paso, Texas*

- Helped 130 students in Spring 2024 to overcome difficulties with Data Structure and algorithms, evaluated assignments, demos, homework, quizzes, and exams.
- Lab instructor for Java lab, meet instructor and students 4 days weekly.
- Held Office hours to assist and prepare students before exams.

*Graduate Teaching Assistant at Discrete Structures I (CS-2201) and Discrete Structures II (CS-2202)* *El Paso, Texas*

- Helped more than 150 students in 4 different sections during 2 semesters to overcome problem-solving and introductory programming difficulties.
- Held Office hours to assist and prepare students before exams.

*Graduate Teaching Assistant at Introduction to Computer Science (CS-1301) with Lab (CS-1101)* *El Paso, Texas*

- Helped 50 students overcome difficulties with programming and evaluated assignments, homework, quizzes, and exams.
- Lab instructor for introductory Java lab. Meet instructor and students 5 days weekly.
- Held Office hours to assist and prepare students before exams.

*Graduate Teaching Assistant at Computer Programming Sci/Engr (CS-1320)* *El Paso, Texas*

- Assisted instructor in a multi-major environment for introductory programming language C class.
- Helped 50 students to overcome difficulties with programming and evaluated lab assignments, quizzes, and exams.

*Graduate Teaching Assistant at Introduction to Computational Thinking (CS-1310)* *El Paso, Texas*

- Assisted instructor in a multi-major environment for introductory Python-based class.
- Helped over 200 students overcome difficulties with programming-based final projects, and evaluated assignments, demo project presentations, quizzes, and exams.

**UTEP, Department of Mathematical Sciences** **June 2023 - July 2023**

*Graduate Teaching Assistant at Discrete Mathematics (Math-2300)* *El Paso, Texas*

- Guided 45 students to overcome problems in problem solving and assisted the course instructor in evaluating online assignments, quizzes, and exams.

**UTEP, Department of Pharmaceutical Sciences** **June 2022 - August 2022**

*Graduate Research Assistant at The Nurunnabi Lab ([utep.edu/pharmacy/nurunnabilab/](http://utep.edu/pharmacy/nurunnabilab/))* *El Paso, Texas*

- Worked on a project for developing a portable Bio-Sensor device to measure c-peptide level from human samples.

## TECHNICAL SKILLS

## SELECTED TECHNICAL PROJECTS

---

### Machine Learning Project

- Predicted the risk of violence for an individual using Machine Learning Models on Correctional Offender Management Profiling for Alternative Sanctions dataset.
- Used standard neural network techniques, applied optimization algorithms, implemented a neural network in TensorFlow, and applied deep learning to different applications.

### Artificial Intelligence I Project

- Implemented Feed Forward Neural Network (One Layer, Two Layer, and Multilayer) from scratch, trained them on CIFAR-10 and MNIST dataset.
- Analyzed their performance on the given datasets in terms of accuracy.

### Software Project Management Project

- Developed a group project on Identifying Mental Health Trends Through Data Analysis.
- Completed a feasibility analysis of the project, and developed project phases and milestones.
- Generated qualitative risk assessment report including critical success factors.

### Database Management Project

- Collaboratively designed and implemented a relational database system in MySQL focusing on Research Spaces in UTEP.
- Developed features to display availability information and devised procedures to allocate places efficiently.
- Participated in both front- and back-end development.

### Software Architecture & Design Project

- Designed the architecture of an AirBnB-like Short-Term Rental Management Software.
- Applied different Quality Attribute scenarios, and implemented components of module views. Generated detailed control documentation.

## AWARDS, ACHIEVEMENTS AND EXTRACURRICULAR

---

- President, Bangladeshi Student Association (BSA), UTEP: 2023 - 2024
- CodePath community member since January 2022.
- Travel Grant from Bangladesh-Sweden Trust Fund: 2020.
- OIC Scholarship for first three years at undergraduate level: 2006 - 2008.

## LANGUAGE SKILLS

---

- Fluent in Bengali (native), English (TOEFL 101/120), Hindi (Speaking & Listening)
